BIO

Born and raised in Angola and now based in Bulgaria Dark Jay was shaped by the sounds of African nightlife and has carried the influences of African sounds and global culture to his DJ style.

As a DJ he's been part of many events and projects, performing at some of the biggest nightclubs in Angola and now in Bulgaria.

Currently he's a resident to Memento Varna and is also headlining the biggest african music focused event in the city.

In recent times he's been very active in Sofia as well and this summer he's headed to Sozopol as well.

As someone who has always been part of the nightlife scene and a big time party animal he brings nothing but good vibes to the DJ booth to share with his audience.
